U. S. DEPARTMENT OF AGRICULTURE

Plant and Seed List

for Fall of 1929 and Spring
of 1930. Retail Only

D. H. Snowberger
Payette, Idaho

All bulbs should be ordered before November 1st except Auratum lily which may not arrive from Japan before that time.

I had hoped to have a full descriptive catalogue this fall, but owing to unavoidable conditions, my stock is too small for the expense this would involve.

Some of the plants are not heavy, but all have been transplanted, except a few natives, and are in a healthy condition, such as I would be willing to buy. I guarantee all plants to reach you in good growing condition. Postage extra on plants, and if you send too much the excess will be returned. All seeds postpaid.

Owing to my limited supply, I may be sold out of some items, and if such is the case, your money will be promptly returned in stamps, check or money order. I abhor credit slips and shall never use them.

All plants 15c each except as otherwise noted. Seeds, 10cts.

All are perennial except those followed by "a" for annual, and "bi" for biennial; "r" stands for rocky plants; "n," native.

Plants

Achillea rosea
 Achillea filipendula
 Aquilegia alpina, r
 Aster occidentalis, n
 Aster coeruleus, purple
 Aster St. Edgwin, pink
 Bleeding Heart, 25c
 Campanula longastyla, r
